Feets of Strength 5K - Geneva, IL

May 15, 2011

Note: All results are based on chip time, which is the difference between when a runner crosses the finish line mats and when they crossed the starting line mats. In this race, there was a 0.50 second difference between when the first two runners crossed the starting line and a very close finish. That resulted in Joe Mumford (the first runner across the finish line) actually having a chip time of 0.23 seconds slower than Steve Nusser (the second runner across the finish line). Our congratulations to both runners on an outstanding race.
